Professional Profile

Available for Canadian and International Projects

Described as an extremely accomplished camera operator and a fine filmmaker, Lee has built a solid reputation in the industry, both as a technician and as an artist.

Lee has a creative eye for detail and is drawn to anchoring structure and balance in his images with a dedication to quality work. Partnering with multiple Directors and Directors of Photography, over two years on the largest ever budget TV series - Amazon Prime's "Lord of the Rings: The Rings of Power", Lee was instrumental in the design and execution of complex camera shots, from inception to execution. Lee successfully developed an innovative approach to live scale drama work requiring a variety of remote heads, Technocranes, TechnoDolly, and Handheld.

Lee is an effective communicator, leading teams and working collaboratively with others to achieve the conceptual vision. On "Lord of the Rings", Lee was trusted by the Directors, Showrunners, and Cinematographers to execute on the creative as well as the technical. Lee attended showrunner meetings as a representative of Camera to assist with scene breakdowns and provide achievable shot solutions.

Having worked in the industry from ground level, Lee has acquired advanced knowledge and progressive skill sets in the areas of Dolly Grip, Technocrane, and Motion Control all utilized to be an incredibly capable Camera Operator. No matter the scale of the project, Lee excels in challenging environments demonstrating initiative, fast thinking, innovation, and strong analytical skills.
